

'GardeBoue' is an all aluminum foot grille option that is technically far more superior, elegant, heavy duty and tailor made to your requirements and designed for multi-directional entrances. 'GardeBoue' is extremely effective in areas prone to severe weather conditions like snow, sand, rain, hail storms, etc.

'GradeBoue' is suitable for Schools, Universities, Hospitals, Public Buildings, Hotels, Commercial Buildings, Metro Stations, Terminals, Cinemas, Residential Buildings, Shopping Malls and Banks.

'GardeBoue' is suitable for high volume of pedestrian traffic more than any other mat. Multi-directional mat design provides aggressive scrapping action.

'GardeBoue' is heel and wheel proof and does not promote fungal / bacterial growth.

PROSPEC 'GardeBoue' is maintenance free and looks brand new for years.

Suitable for interior or exterior application.

Effective way of intercepting water and snow.

Multi-directional visual effects of 'GardeBoue' enhances the aesthetic value of the building.
