

Features

- System designed for watertight installation
- Ideal for bridges as well as commercial kitchens
- EPDM/Neoprene Seal can be replaced easily and without much tools
- Available in Aluminum
- Resistant to salt and waste water
- Resistant to -40°C to +150°C ambient temperature

- Firmly anchored EPDM/Neoprene Seal is ideal for movement tractability as well as watertightness
- System designed for heavy duty application
- Resist heavy duty loads
- No bump structure is ADA compliant
- System is suitable for minor seismic movements
- System specially designed to accommodate sub-floors of variable heights of 70mm, 80mm, 105mm
